" Plain & Simple Tried & True"

Hi Folks!

Time is a blink. Days go by faster than you can slip a boot out of a stirrup. There's no such thing as saving time. **You can't bank it**; then withdraw it later when you need some more. That's why wasting time is such a sin. The better use of time is what we are all after. Time is more valuable than money!

Simply put, ***"The Rapid Results Sales & Listing Program"*** is a more effective and efficient use of time and resources when it comes to getting clients and customers to the settlement table.

Property is for sale everywhere, banking is still quite conservative and buyers are still looking for the bottom of the market; doesn't sound pretty does it! Our office is so busy we've had to expand the workforce to keep up. A new location will be opening soon in Pocomoke, digital video has been added to the website, we are fine tuning the art of viral marketing on the internet, we have a full auction calendar through October, the direct mail mechanism is working very well, our trademarks and copyrights are in process and we are going to the closing table frequently. ***We are not doing business as usual!***

It's time to break camp for now and head on down the trail. With that said keep smiling, don't let the things of this world worry you and always remember and never forget, "Time brings all things to pass"

God Bless,

Rico
