Dear Mr. Edelstein:

I want to thank you for your help in selling my Postal Center. When we first met you were very informative and straight to the point, it was apparent you had done this many times and you made me feel you were the right person to market my business.

My feelings were right, you found a great buyer for me and sold the business for its asking price.

You were professional, informative and helpful and I would gladly recommend you to anyone who wanted to sell his or her business.

Sincerely,
