To Whom It May Concern:

What can I say about Jet Balagtas from [redacted] ? Simply that he's the best!

I first met Jet about a year ago when I wanted to purchase my first house. Let's just say that my credit wasn't the best. Medical bills resulting from when one of my children was born resulted in tax liens, collections accounts and delinquent bills, a lot of which were still active.

I always wanted a home, but figured my credit would mean renting the rest of my life. I surf the Internet a lot and one day, on a whim, I clicked on one of those pop-up ads offering "three loan quotes" in less than a day. Jet Balagtas called me less than an hour later and boy, was he ready to work! The other two loan companies sent a couple of "form letter" style emails, but no one ever called me personally.

My past credit never slowed Jet down in the least. In a few days he had a loan approval with a GREAT rate, and shortly after that I owned my home. I can't even imagine what kind of deal Jet could have arranged if my credit was good. What a difference owning a home makes. My children have a big yard to play in, and my wife and I have the financial security that comes with owning a home.

Now for today's update. It's a year later and we wanted a home equity loan. I should have started immediately with Jet, but I called my Credit Union to get some rates and terms. Once they saw my credit report, well, let's just say they got a little "cold" with me, so I called Jet.

Jet has come through again! I now have an approval for a Home Equity Line of Credit, and believe it or not, my rate is better than the "A Credit" rate from my Credit Union!

Jet, I can't tell you how much I appreciate all of the work you have done for me and the difference it has made in my life and the lives of the family. I know you must have other clients you are working with, but you always make me feel like I'm your highest priority. You are fast, responsive and talented.

I said it once, but I'll say it again, **YOU'RE THE BEST!**

Thank you
