New end zone: Hermosa Beach

New York Giants defensive end **Michael Strahan** has purchased a town house in Hermosa Beach for slightly more than \$2 million.

The newly built house, which faces other homes on what is known in the beach community as a pedestrian-only "walk street," is about a block from the ocean. The home has three bedrooms in 2,700 square feet, a courtyard, an elevator and a rooftop deck.

Strahan, 35, has appeared in

TV commercials and sports shows and was in the news earlier this year when his ex-wife received \$15 million in their divorce settlement.

John Caliendo had the listing at Re/Max Beach Cities Realty.
